Vizsla Breed Standard
Sporting Group

General Appearance

That of a medium-sized, short-coated, hunting dog of distinguished appearance and bearing. Robust but rather lightly built, the coat is an attractive shaded golden rust. Originating in Hungary, the Vizsla was bred to work in field, forest and water. Agile and energetic, this is a versatile dog of power, drive and endurance in the field yet a tractable and affectionate companion in the home. It is strongly emphasized that field conditioned coats, as well as brawny or sinewy muscular condition and honorable scars indicating a working and hunting dog are never to be penalized in this dog. The requisite instincts and abilities to maintain a "dual dog" are always to be fostered and appreciated, never deprecated.

Approved January 13, 2009

Effective April 1, 2009

Good Afternoon,

I would like to introduce myself, and my business to the Chambersburg AKC. I opened at 53 Chambersburg Street, Gettysburg, Pa in August. The shop sells dog and cat gifts, such as collars, leashes, custom clothing, tags, and owner gifts. Also, we sell hand painted dog breeds on slates, glasses, and portraits.

If I can assist your organization in any way, please give me a call or just stop by.

Thank you for your consideration.

Regards,
